Projects

• School Management System— (Saud International School) Saudi Arabia
Technologies Used: Laravel, Livewire, Bootstrap, JavaScript, MySQL.
Created a School Management System based on Radio Frequency Identity (RFID) to minimize the security risk. Develop Admin Panel, Teacher Panel, Parent Panel, Student Panel, Cafeteria Panel and books management system which improved school efficiency by 50%.
Our management system reduced process times and provide better school experience.
We built entire application with up to date technologies and framework to ensure reliable security.
